

Spring Term

in

Class 6

English

In English this term we have learnt how to structure and write persuasive letters, how to analyse and write our own poems and started reading a new class novel, "The Peculiar Peggs of Riddling Woods."

Set in a sleepy town called *Suds* the story centres around a main character called Poppy who sets about solving some

mysterious goings-on while visiting her gran.

Class 6 have enjoyed reading this story and talking about particular themes and characters. We used the book to form ideas about how the characters might look and had a go at drawing them.

World Book Day

In March, Class 6 had a fantastic time celebrating World Book Day by bringing to life some of our favourite book characters.

Throughout the day we were kept busy with lots of fun activities about books and book characters.

After a parade in assembly, where we showed off our costumes, some lucky children won prizes for their inventive designs! We had a fun day celebrating our love of books!

PE

In P.E. this term we have enjoyed a variety of activities, from dodge ball to skipping and football. In March, we visited **St. Bede's**

school for a P.E. lesson delivered by a teacher and some of the pupils from the school. They organised a

range of activities and we all had a chance to try each one. We developed our throwing and catching skills in particular and had a great time!

In February, *Destination Judo* visited the school to provide a judo lesson for every pupil and we thoroughly enjoyed our session! It was fun, fast-paced and gave us the chance to develop a range of different skills!

Art

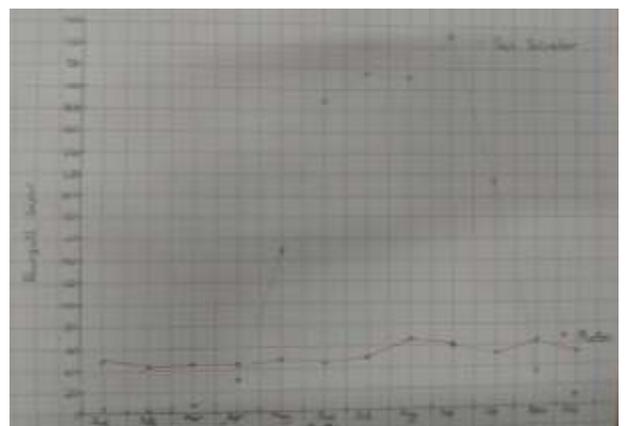

In our Art lessons, we have concentrated on improve our sketching skills. We developed our still life drawing skills and used our knowledge of tone and shading to improve our work.

We also learnt how to make sure our drawings are in perspective, using a variety of techniques to give a 3-dimentional feeling to our landscapes.

Geography

In our Geography lessons, we have been researching the country of **El Salvador**. We found out all about the landscape, climate and

customs of El Salvador and compared life in El Salvador with life in England. After researching the weather in San Salvador, we created a graph showing how the rainfall there differs from that in Murton.

We also looked at the tourist attractions of El Salvador and created posters encouraging people to holiday there.
