

I can interpret and present discrete data using pictograms and bar charts.

Here is a table of data that shows the number of different vehicles that passed by a school over an hour.

Type of Vehicle	Car	Bus	Bicycle	Van	Motorbike	Other
Number That Passed By	23	10	9	12	5	17

Draw a bar chart to show the data:

A bar chart to show _____

- 1) What type of data is the number of vehicles?

- 2) How many more cars passed by than buses?

- 3) How many bicycles, vans and motorbikes passed by in total?

- 4) How many more buses and bicycles passed by than vans?

- 5) How many vehicles passed by altogether over the hour?

Birthday Bar Charts

I can interpret and present discrete data in bar charts.

Here is a table of data that shows how many of Year 4's birthdays there are in each month.

Month	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sept	Oct	Nov	Dec
Number of Male Birthdays	5	3	3	6	2	2	6	1	9	5	5	4
Number of Female Birthdays	7	2	5	5	4	5	4	2	5	8	4	2

Draw a grouped bar chart to show the data:

A bar chart to show _____

- 1) What type of data is the number of birthdays?

- 2) How many more male birthdays does September have than February?

- 3) How many female birthdays are in spring (March - May)?

- 4) What is the difference between male and female birthdays in autumn (September - November)?
