

Life in class 7

Spring Term

Unfortunately, for obvious reasons, Spring term in school was very short for most children this year and most of the work this term was completed at home.

A big well done to all the children who participated in home- school learning via Teams and all the parents who supported them.

This term we have been learning about the climates and animals in deserts and rainforests and the children produced some excellent multi- media presentations.

In **English** the children's writing continues to improve and we wrote some excellent imaginative stories about the Cirque Du Freak, some very good persuasive writing and newspaper reports.

To design an advertisement such as a poster or radio jingle on paper for an imaginary product making use of linguistic devices and other features learnt from reading examples

Here at Hover corporation we value our customers so we make sure that our hover bike was just right. This device is fitted with cutting edge tech that is advanced for its time. We use 100% clean energy because we love this planet that we call Earth.

Our hover bikes are fitted with braking boosters, digital clocks and Sat Nav that we fitted with handles of different language. Even when this wonderful device gets in the wrong hands it's safe. Our hover bike does not go above legal speed limits in each country. What more could you want?

From Hover corporation, a new way of travel, buy the Agile Gravity bike (or AGB) a transportation device that is currently nobody's other.

AGB, make driving fun.

In **Maths**, we have continued to work on the curriculum and have really improved our arithmetic skills -this term we are working on improving our problem solving skills.

In **Computers** we also spent time reminding children of the important lessons of internet safety.

In **Science**, we looked at the work of Charles Darwin and his work on Inheritance and Evolution and we have learnt how animals and plants have adapted and improved over time.

We hope you have enjoyed reading about some of the things we have been doing this term and that working at home with your children hasn't been too stressful.

Keep safe and thank you for all your support.
