

# Life in Class 1

## Summer 2021

### People Who Help Us

In Summer 1, we have had a wonderful time learning all about 'People Who Help Us'. We have had the opportunity to learn about a range of jobs, skills and how different people in our community help us.

For example, The Dentist;

We learnt about Superheroes and identified 'Real-life Superheroes'. We made our own Superhero masks and vehicles!

## PE - Gymnastics

This term we were very lucky to have a sports coach in for the Sports Partnership. They taught us Gymnastics!

## Walk to School Week!

We had great fun celebrating 'Walk to School' week. We created our own charts to record how many children walked to school each day, we also took part in Happy Shoe Day!

## Happy Shoe Day:

## RE

One of our RE topics this year has been 'Our World'. We have learnt all about Fairtrade products, and made our own Fairtrade crispy cakes!

## Art

When reading the Everywhere Bear, we looked at the different modes of transport he used in the story. We constructed our own modes of transport using Junk Modelling.

We have also studied a range of Artists this term such as Molly Rausch and Clarice Cliff. We created art work in the style of these Artists.

## Computing

We have been practising how to use the laptops independently. We now know how to log on and find Lexia or Numbots!

We have also used our skills to create some digital art work linked to our topics!

## Sports Day!

We missed having our grown-ups in to see us, but we had so much fun at Sports Day! We did lots of races such as hurdles, running, egg and spoon and sack race!
